

"NetApp celebrates 20 years of the WAFL file system."

Can you afford to run your business ...

- on 20 year old technology
- with poor utilization rates
- with line item software licensing
- with hardware refreshes every 2-3 years
- with high warranty and renewal costs
- with capacity based licensing
- with forklift upgrades

Read the White Paper "[SSD Storage vs. Unified Storage](#)" and be entered to win a **\$200 AMEX giftcard**

Learn about Starboard's SSD Hybrid Storage - the architecture for the next generation.
